Who am I?

Annie Weatherburn

Managing Director of Australian Boarding Schools International (ABSI).

Email: annie@australianboardingschools.com.au

For almost 20 years I have been helping and working with the education agent representatives of our many schools and managing the enrolment process of students wishing to study in high school in Australia.

Although 9 years ago, I opened 'Australian Boarding Schools Int'l (ABSI)' - I have worked for our two Tasmanian schools - St Michael's Collegiate School and The Hutchins School located in beautiful Hobart Tasmania for mostly 20 years. I know these schools and the procedures extremely well.

My children attended these schools They live in Tasmania

My daughter, Sarah, **attended St Michael's Collegiate School** in Hobart from Kindergarten and graduated from 'Collegiate' in 2005. She went onto University gaining her Science degree and later her Psychology Diploma. She is now 31 years and married. Her husband, Adrian, attended the Australian Maritime College in Tasmania, he is now Captain of the CSIRO science research ship 'Investigator'.

My son, Christoph, **attended The Hutchins School** in Hobart from Kindergarten and graduated from 'Hutchins' in 2009. He attended University of Tasmania, and excelled in his academics at UTAS, being awarded Golden Key status from UTAS. He completed his Geography/Environmental Science degree. He is now 28 years, a Project Engineer for a large construction firm, is building his own home currently with his partner Laura.

AS BROTHER AND SISTER SCHOOLS

TWO SCHOOLS WORK CLOSELY TOGETHER

Although Collegiate is a girls school, students participate in many activities with the brother school - The Hutchins School: Orchestra, Drama & Musical theatre productions, excursions, outdoor education, boarding house activities and social functions.

In the senior grades (Years 11 to 12) the schools have boys and girls in some classes at each school! This is because the schools combine timetables and schedule subjects on different lines, to enable students to be able to select from almost 100 subject choices without clashes on their timetable.

A wide-angle photograph of an indoor swimming pool. The pool is filled with blue water and has several lanes marked with yellow and red lane lines. People are swimming in the pool. The pool is surrounded by a wooden deck and has a high ceiling with a complex steel truss structure. Large white pipes are visible on the ceiling. The walls are made of light-colored brick. There are several people sitting on chairs along the side of the pool. A banner with the text 'THE COLLEGIATE POOL' is overlaid on the left side of the image.

Year 9 ASPIRE Program

Year 9 students attending St Michael's Collegiate School participate in a 'special' academic-year program - the **Year 9 ASPIRE program**.

This program develops critical thinking, positive risk taking, independence, resilience, respect and a strong sense of community.

Year 9 ASPIRE Program

St Michael's Collegiate

Set for life

Year 9 is a pivotal year in transition from adolescence to emerging adulthood.

The Year 9 ASPIRE program provides a challenging yet safe and supportive environment in which students are encouraged to aspire to new goals. ASPIRE assists all Year 9 students in developing the skills to become independent, resilient and responsible global citizens.

Girls have the opportunity to learn through self-directed projects, powerful group programs, community service activities and volunteering for community events, all of which give a wonderful richness to the Year 9 experience.

One of my favourite times of the day is the evening meal. All boarders and staff meet to share a delicious meal – technology is put away and everybody sits at the table to talk about their day.

Ali, Year 12
